PROFILE SUMMARY

Frontend Developer with 3 years of experience in React, TypeScript, Next.js, and React Native. Delivered commercial web platforms and currently engineering a mobile-first real estate app. Focused on Figma to code implementation, API integration, and reusable component architecture.

EDUCATION

Jan2024 - Present

IMO STATE UNIVERSITY

- B.S. in Computer Science

SKILLS

LANGUAGES

- JavaScript
- TypeScript

FRAMEWORKS & LIBRARY

- React
- NextJs
- Tailwind CSS
- React Native
- Git & Version Control

WORK EXPERIENCE

4zee properties

JAN 2026 - PRESENT

Frontend & Mobile Developer

- Architected a cross-platform real estate mobile app using React Native, implementing advanced search queries, dynamic property filtering, and custom state management.
- Engineered a high-performance Next.js landing page with optimized asset delivery and web-to-app conversion pathways to maximize user acquisition.
- Collaborated with backend engineers to design and consume scalable REST APIs, ensuring reliable, synchronous data streaming across mobile and web platforms

Appliz properties

FEB-2026 - MAR-2026

Freelance Frontend Developer

- Designed and delivered a fully responsive company website using React and Tailwind CSS within a one-month timeline
- Translated client requirements into a clean, professional web presence, handling both design decisions and implementation independently.

Tech Bubble

2024 - 2025

Freelance Frontend Developer

- Engineered complete authentication systems, including secure login, registration, and password recovery flows.
- Integrated robust backend APIs across all core authentication modules in close collaboration with the backend team.
- Authored reusable, type-safe UI components using React and TypeScript to streamline feature deployment.

PROJECTS

• Finance Tracker

Engineered a responsive budget tracker featuring secure user authentication, live Firestore data sync, and real-time expense charts.
